Abstract:

These creams are specially formulated for dry, normal and oily skin types and completely natural ingredients are used in them. After use, while the skin feels fresh and refreshed for a long time, no unwanted or excess fat is felt on the skin.

Market Size:

The global skin care products market size was valued at USD 130.50 billion in 2021 and is expected to expand at a compound annual growth rate (CAGR) of 4.6% from 2022 to 2030. Escalating demand for face creams, sunscreens, and body lotions across the globe is expected to have a positive impact on the market growth over the forecast period. Moreover, the flourishing e-commerce sector is anticipated to boost market growth further.
