## Production Per Time Unit:

2.000 - 4.000 Bottles per Hour (It Depends on the Size).

## Production Cost Per Unit:

1 - 2 US\$ per Bottles (It Depends on the Size).

## Abstract:

My Herbal Pain Reliever Gel is a deep muscle cooling gel soothes and cools aches and pains to provide muscles with temporary relief. Great for muscle soreness caused by exercise, minor arthritis, and simple back pain.

Our 99.2% natural apothecary pain relief gel contains nanoparticles of the peppermint plant (*Mentha piperita*). This natural ingredient overrides the sensation of pain by stimulating nerve endings that transmit cold, much like an icepack does. Unlike other back pain relief cooling gels that stain clothes, ours is greaseless and stainless. Using the simple-squeeze bottle is a breeze. Liberally apply to painful areas not more than 3-4 times daily.

## Market Size:

The U.S. pain management drugs market size was valued at \$25,174.29 Million in 2021, and is projected to reach \$34,824.24 Million by 2031, registering a CAGR of 3.3% from 2022 to 2031.
